---	--	---

Dixon Engineering & Sales Co. is proud to announce that we have added **Hoosier Conveyor Company (HCC)** to our excellent line of products. Located in Knightstown, Indiana, Hoosier Conveyor Company was born from the Hoosier Feeder Company family to better support assembly automation and feeder applications. Their products and services help companies take the next steps in automating their production lines, thereby increasing throughput and efficiency.

Hoosier Conveyor Co. is a leader in custom conveyors and food grade automation solutions. Their innovative parts handling solutions are serving clients across the U.S., Canada, and Mexico. Hoosier Conveyor Company offers solutions for all types of industries. If your company is responsible for assembling or packaging products at any stage in manufacturing, chances are they have a solution for you.

INDUSTRIES THAT HCC SERVES:

TYPES OF CONVEYORS THAT HCC MANUFACTURES INCLUDE:

ORIENTING CONVEYORS:

Specifically designed to singulate and orientate bulk products to prepare them for the next phase in the production process.

Available in standard, heavy-duty and stainless steel versions.

Used in industries such as:

- Packaging & Secondary Packaging
- Inspection
- Printing & Labeling
- Automation
- Food Processing

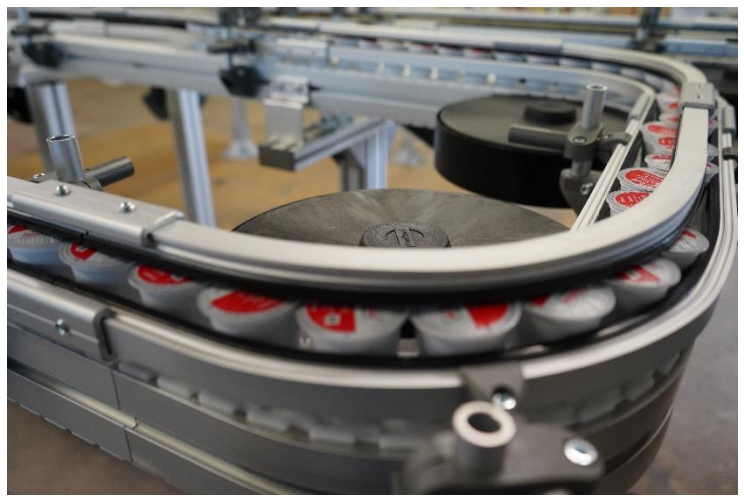

FLEXIBLE CHAIN CONVEYORS:

Versatile side-flexing chain options designed to help you maximize your efficiency.

Ideal for a variety of applications including part handling, transfers, assembly automation, packaging, elevation changes, accumulation and more.

Can accommodate almost any layout including tight spaces, multiple curves, elevation changes, jogs, and long runs.

BELTED & MODULAR BELT CONVEYORS:

HCC offers a complete line of fabric belt and modular plastic belt conveyors for industrial and sanitary applications. Unique conveying solutions are also available.

Some preconfigured conveyor options are available for rapid delivery.

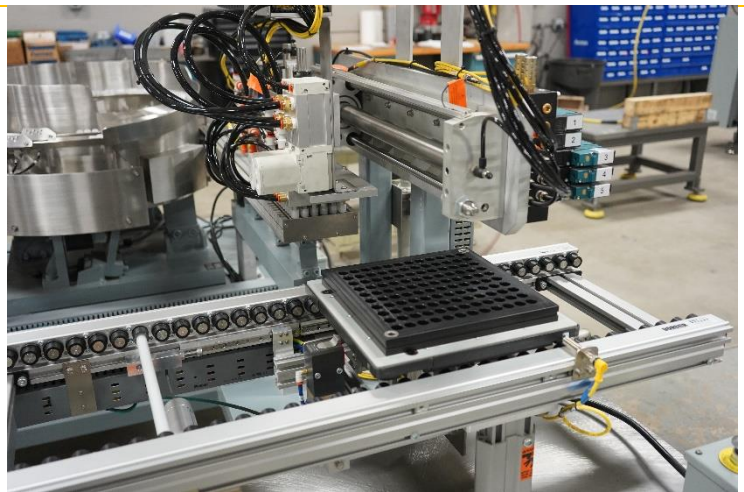

HCC offers complete integration services from custom guiding and accessories, to controls and sensors. All products are assembled and tested at their facility.

PALLET SYSTEM CONVEYORS:

Pallet System Conveyors simplify product flow and control and include automation-ready features, industry compatible pallet sizes and innovative modules.

Pallet Systems from HCC are specifically designed to increase efficiency, reduce downtime in automation processes, and provide accurate conveying.
